

Final Examination Schedule for Spring 2014

Regular classrooms will be used for the examinations, unless instructors make special arrangements through the Registrar and Academic Services Office. Examinations in courses must be scheduled according to the class sequence. The instructor should announce the time and room for the examinations. Instructors will announce to their classes which rooms will be used for all classes having common final examinations. Final examinations in one-credit courses are to be given during the last regular class period. Night class final examinations are given from 7-9:00 p.m. during the final examination week, on the same day as the first class meeting day (e.g., a Tuesday/Thursday course would have their final examination on the Tuesday of finals week).

If a student is scheduled for three or more examinations on any one day, the middle examination(s) of the day shall be rescheduled for this student by the instructor(s) upon the request of the student. The student will be required to make this request between the 10th and 15th day of classes.
